Drawings

1. Figs. 4 and 5 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Ex parte Quayle

2. This application is in condition for allowance except for the following formal matters:

In claim 1 line 3, "Josephson junctions" should be --Josephson junction devices--.

Insofar as understood, the word "microwave" should be used as an adjective, not a noun. In claim 1 lines 4 and 9, "microwave" should be changed to, for example, --microwave power--.

In claim 1 lines 6 and 9, insofar as understood, the bias current supplying circuit, not the controlling circuit, is for impressing bias current. The controlling circuit is for controlling the bias current supplying circuit.

In claim 3, --wherein-- should be added between "2," and "the".

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

3. The Prior Art of record (Hamilton et al.) discloses Josephson junction devices grouped by the power of 2, not the power of 3 as recited in claim 1. Groupings to the power of 3 do not appear to be disclosed or suggested.
